

2021 Tech4Good Denver Annual Survey

A few weeks ago, we asked you to take our annual survey and help us plot our path for 2021 and beyond. Thank you to everyone who gave us their valuable feedback on the topics of interest for our future events as well as recommending names of potential presenters. Here are some other key lessons we learnt from the survey:

- *“Learning new skills”* is the main reason why you attend Tech4Good forums and webinar, closely followed by *“networking with other non-profit professionals”*.
- You prefer *“presentations by experts at live events”* and *“webinar presentations”* over other event formats.
- Most survey participants are interested in joining a Tech4Good Denver Online Community that provides online resources for non-profits and an open forum to collaborate.
- Email from Tech4Good is your overwhelmingly preferred way to hear from us about our events.

Congratulations to Theresa Bucci, *Leadership for Educational Equity*, for winning the \$25 Amazon gift card. Again, to everyone who took the time to participate in the survey – THANK YOU!
